About Us

Tej World School was established with the view of the urgent necessity of a good and practical education institution in Arwal (Bihar). We have designed our educational process in a way so that besides academic results students inculcate a spiritual Outlook and a global vision, which teaches them respect for all people and religions of the world and prepares them to serve humanity at large. The school culture encourages students to innovate and take risks when developing new ideas and considering solutions to problems.

Life at TWS

In order to be successful at school, children need to be happy. It is our belief that children thrive in a secure but challenging setting where they are treated with care and respect and where there are lots of opportunities for personal and spiritual development and for students to take responsibility. Students are encouraged to take part in the clubs and activities which take place at lunchtime and after school. There is a wide range of opportunities from football and climbing, to cookery, art, choir, orchestra, and drama. We also know that as children are growing up, they sometimes need to be quiet and to stand apart from their very busy lives in school. We make sure that time and space for personal reflection are also built into these important years. There are dozens of visits and trips. There are numerous fiercely fought competitions in all subject areas to win House points throughout the year! Nominations recognize and praise our student's effort and attitude to learning and star badges are given to the students (Years 7-11) to wear or they are given a stamp on their 'Drink Card'

A Note From Mr. Vimal Kr. Bharti

"This is a place you can trust."
This message is about reliability. Young children crave consistency, routine, and structure, and those same principles can create a trustworthy environment that helps educators and staff rely on leadership and feel safe to unleash their creativity and big ideas.
